

DS3 Programme Advisory Council Meeting 25th September 2013

Actions from Last Advisory Meeting – 19th June 2013

Review of Actions from last meeting

1. Draft new wind farm modifications for the Distribution Code **[DSOs]**

DS3 Programme Update

2. Ensure updated versions of Grid Code are available **[TSOs] Version 5 of the EirGrid Grid Code will be published in advance of the Advisory Council Meeting**
3. Share draft All Island Performance Monitoring & Testing procedure with Advisory Council **[TSOs] Update to be given at the Advisory Council meeting**
4. Prepare a short paper on Loss of Largest Infeed for the Advisory Council **[TSOs] To be circulated in advance of the Advisory Council meeting**
5. Clarify if RoCoF reports will be published. Provide information on the steps which must be taken to update the Distribution Code according to the changes which have been made to the Wind Farm Settings Schedule. **[DSOs]**
6. Provide a timeline in which this update will be completed. **[DSOs]**
7. Follow up meeting between the TSOs and wind industry to be scheduled. **[TSOs] This has been discussed at recent GCRP, EirGrid meetings with OEMs and transmission connected windfarms. EirGrid has written to each transmission connected windfarm to confirm requirement for compliance with new Grid Code modifications is on a per windfarm basis.**

RoCoF Update

8. Circulate CER paper once published **[TSOs] [CER RoCoF Consultation](#)**
9. Revert with new timelines for increasing SNRP and the likely effect this will have on the curtailment levels **[TSOs] Update to be given at the Advisory Council meeting**
10. Re-programme RoCoF workstream following the receipt of updates from both CER and UREGNI **[TSOs] Re-programming underway. Further update to be given at the Advisory Council meeting**

Voltage Control

11. TSOs and DSOs to work together on further consideration of control arrangements and their implementation. **[TSOs and DSOs] Work ongoing – further update to be given at Advisory Council.**

Curtailment Report 2012

12. Investigate producing regional specific, half hourly “All Island dispatch down of wind volumes” charts to further help identify times and regions possibly effected by network constraints. **[TSOs] Update to be given at the Advisory Council meeting**
13. Publish the 2012 curtailment report pending sign off from CER **[TSOs] Complete**

System Services Discussion

14. Confirm venue for System Services workshop on 26th June **[TSOs] Complete**
15. Input the feedback received from the Advisory Council into the presentations at the System Services workshop. **[TSOs] Complete**

Minimum Number of Units Study

16. Carry out more in-depth Minimum number of sets studies. Ramping requirements are to be included in these studies. **[TSOs] This study is in progress**

DS3 Advisory Council Review

17. Circulate an Advisory Council Review questionnaire to the Council members requesting feedback in relation to format, content, timing, and location of the meetings. **[TSOs] Complete**
