

A note regarding the Geographic Information System files

It should be noted that when these shapefiles are uploaded to an ArcGIS system, or any other third party GIS system, the colour of the line forming the polygons may not necessarily appear as 'red' as the feature styling may be randomly selected by the importing system. Should that happen it would be necessary to edit the styling settings of the importing system to ensure that the colours of the lines present correctly. The statutory planning drawings included under Volume 1 of the planning application should be used as the primary source of mapping reference.

Note regarding the February 2016 update

On 11 January 2016 An Bord Pleanála advised that two of the shapefiles uploaded to this site in December 2015, namely 'VA0017_Angle_Towers_CMSA' and 'VA0017_110kV_Modifications_CMSA' were not in accordance with their requirements and requested that revised versions be issued.

Revised shapefiles were submitted to An Bord Pleanála on 26 January 2016 and on 05 February 2016 An Bord Pleanála instructed EirGrid to publish the revised shapefiles on this website and to remove the previous incorrect versions. The revised versions are named 'VA0017_Angle_Towers_CMSA_Rev_01' and 'VA0017_110kV_Modifications_CMSA_Rev_01' and can be found in sections 2. CMSA and 6. 110kV Modifications respectively.
