

Project Consultations and Engagements

What? (Hyperlinks will be updated when available)	Who?	When* (Updated Forecast commencement date)	How?	Why?
CP1021 East Meath to North Dublin Reinforcement	All	Q4 2020 - ongoing	Step 2: EirGrid Consultation	This is a proposed development that will help meet the growing demand for electricity in the East and to allow flexibility of conventional generational dispatch in Dublin. This consultation will be in relation to refining an extensive list of options, to inform the best performing options.
CP966 Kildare - Meath Grid Upgrade	All	Q4 2020 - ongoing	Step 3: EirGrid Consultation	This consultation will be in relation to refining an extensive list of options, to inform the best performing options. This is a proposed development that will help meet the growing demand for electricity in the East.
CP0816 North Connacht 110 kV Project	All	Q3 2020 - ongoing	Step 4: EirGrid Consultation	A 110 kV overhead line or underground cable, linking the substations at Moy, Co. Mayo, and Tonroe in Co. Roscommon. There will be consultations on-going throughout the course of 2020.
Cross Shannon 400 kV Cable	All	Q3 2020 - ongoing	Step 5: Stakeholder Engagement	This project consists of a submarine cable that will link the electricity substation at Kilpaddock in North Kerry to the substation at Moneypoint in Clare. Planning permission and a foreshore application was submitted in early August. As this project is deemed Strategic Infrastructure Development (SID) the planning application was submitted to An Bord Pleanála who have coordinated a 7 week period of statutory public consultation. Newspaper notices were issued in local and national papers at the time of submission to inform the public about the project. An update was also posted on the EirGrid project site. Engagement was also held with the affected landowners prior to submission of the application.
CP0967, CP0968, CP0969 Series Compensation on the Dunstown - Moneypoint 400kV line at Moneypoint, Dunstown and Oldstreet	All	Q4 2020	Step 4: Planning Application/Consultation	Series Compensation on the Dunstown - Moneypoint 400kV line at Moneypoint, Dunstown and Oldstreet lines. This consultation will be run by the Planning Authority. We are a long way off this, as project currently considering technical options in reference to manufacturer inputs.
Celtic Interconnector	All	Q1 2021	Step 5: Stakeholder Engagement	This is a proposed electrical link, which if built will enable the movement of power via subsea cable between Ireland and France. Step 4 Consultation is now complete. Emerging best performing options are being considered. It is intended to setup a community forum for ongoing consultation and engagement following the closing of Step 4. Engagement on Step 5 of the Framework for Grid Development, planned for October / November 2020.
CP0466 North South 400 kV Interconnector Project	All	On-going	Step 5: Stakeholder Engagement	Carrickmacross Office will be open on request with social distancing measures in place for stakeholders to drop-in to discuss the project with the CLO and/or ALO. At least one Stakeholder Update Newsletter will be issued.
CP0866 Great Island - Kellis 220kV OHL refurb	All	Q2 2021	Step 4: Planning Application/Consultation	This project is a refurbishment to maintain the line. This consultation will be run by the Planning Authority. Depending on COVID restrictions, the primary activity of landowner engagement will occur in Q2 2021. Public engagement likely to follow this in Q3 2021.
CP0813 Trien Control Building and entrance improvements	All	Q4 2020	Step 4: Planning Application/Consultation	Planning application for extension to substation (within ESBN landholding) to facilitate a new control building. Improvement works to the substation entrance to facilitate neighbour requests. Engagement required with local landowner.

*Please note, the timelines for some engagements may be affected due to Covid 19 restrictions.
