Re: Scheduling and Dispatch for I-SEM – Revised Version of Clause SDC2.4.10(c) – MPID 271(a)

Dear Arlene,

I refer to the CRU's, letter dated 30 April 2018, which approved Grid Code modification MPID 271(a), as recommended at Grid Code Review Panel meeting on 31 January 2018, subject to it coming into effect on the Effective Date.

The letter noted MPID 271(a) should not become effective during the on-going operation of the SEM, and therefore the modification did not take immediate effect.

As you are aware, on 30 August 2018, at SEM committee meeting 133, the I-SEM go-live date was formally confirmed by the SEM Committee as 01 October 2018. Therefore, the CRU now confirms the Cutover Time, as defined in Part C of the Trading and Settlement Code, as the Effective Date of MPID 271(a).

The CRU now directs EirGrid to revise the Grid Code which shall be deemed to be amended accordingly from the Effective Date set out in this letter.

Yours sincerely,

John Melvin - Director of Energy Networks

cc. Robert O'Rourke, CRU

Raymond Skillen, Chair of the Northern Ireland GCRP

Alan Kennedy, SONI
